The Comets' Tale is the official newsletter and record of the Ventura Count Comets, AMA Chartered Club #173 and is published every other month at the Comets' Tale Lair, in Agoura Hills, CA.

*Editorial contributions are always welcome.*

**Next Meeting:**  
**Thursday, March 17, 2022**  
**At the Oak View Community Center**

**Upcomming Events:**

**Presidents Message:**

Well another 2 months have gone by very quickly. The older you get the faster time Flies by. Our first meeting didn't happen in January so let's pick up next Thursday and get into it. As usual Pizza and Sandwiches will be served at 7:00 for those who want to come early. Don't know how many will come, but if you can please RSVP me at [MPT41058@gmail.com](mailto:MPT41058@gmail.com) so I can get enough to feed everyone attending. All has been going well at the field with all these beautiful days we have been having. Pray for rain please.

The Toilet at the field has been an issue lately. Thanks to TJ and a few other volunteers I think it is finally fixed. The issue is that when the wind comes up, the door flaps open past it's hinge limits and snaps the pop rivets clean off.

TJ has fixed it twice with steel pop rivets instead of the aluminum ones it was built with. Make a long story short, There is a lanyard now on the outside to keep this from happening. Please put the bungee on when you're done using the facilities.

If you need any flying supplies California Hobbies is closing. So head up to Santa Barbara and get what you need from our fellow club member.

If you all have any pictures I would love to have them so I can include them in the Comet Tales. I have included a picture of Chris Platt's F-16 which we are all waiting to see fly. The detail is outstanding on the foamy. It has been upgraded with a 12 blade 90mm EDF engine. Should be able to go about 125mph. It is always fun to watch the jets land. Getting them off the ground is easy, landing them is a totally different thing.

Thanks all, see you at the meeting this Thursday 3-17-22.
